

# CPM-200

Multi-Colour Desktop Sign & Label System

Sourcing appropriate labels and signs can often be time consuming and costly, especially where only small quantities, specifically worded, or exact sized outputs are required. This is where the CPM-200 solves problems, by allowing you to produce exactly what you want, when you want it... 24 hours a day!

## Why purchase a CPM-200?

If you need on-demand access to professional quality, large format, or full colour signs and labels, the CPM-200 is the system for you!

Some of the main applications for the extremely durable, high quality output include:

- Health & Safety Signs
- Plant ID
- Visual Management Signs
- Facilities Signage
- Logistics Barcoded Signs & Labels
- Pipe Marking
- A4, A5 and Larger Instruction Sheets
- Chemical Tank/Drum Labels
- Engineering Labelling
- Continuous Improvement Applications
- 5S Labelling
- Kanban Labels
- Electrical Marking
- Asset Labelling
- Nameplates
- Laboratory Requirements
- Directional Signage
- Vehicle Labels and Graphics

## How does the CPM-200 work?

The CPM-200 prints multiple spot, or full colour output in our widest format, then using vinyl-cutting technology, together with our tried and tested software, cuts out signs and labels to specific shapes and sizes. So for example, you can design and print a control panel label that can then be contour-cut to fit into a specific recess.

Because the system handles individual shapes and sizes, there's no need to buy customised blank labels. For customers who need to label high-value, low quantity equipment in a professional manner, the CPM-200 is ideal.

## Included Software

Our innovative Microsoft Certified software enables you to incorporate sequential numbering, information from databases and even barcodes. With a comprehensive clip art gallery containing more than 3,700 symbols, all health and safety needs are taken care of. As well as the built-in symbols, you can easily introduce your own logos, diagrams and schematics.

You can cut hundreds of different shapes using the symbols in the gallery, or you can import any shape you require using wmf (Windows Metafile).

With a single label print area of up to 200mm x 1.5 metres, large labels and signs can be created, together with multiple custom-cut labels.

## Consumables

Our consumables have recyclable cardboard cores and ribbons are placed in refillable cartridges, making them both environmentally friendly and cost effective. We have a large range available from stock, and can also produce specialist made-to-order materials.

**Create your own  
signs & labels wherever  
& whenever you need them**

Large Safety Sign:  
390mm x 555mm. Cost: £12.21

Control Panel Label (inc. Laminate):  
250mm x 180mm. Cost: £4.85

Bespoke Cut Tool Shadows:  
190mm x 104mm. Cost: £0.77

Communications Process Label:  
400mm x 200mm. Cost: £4.40

Large CLP / GHS Pipemarkers:  
1050mm x 190mm. Cost: £11.48

Photoluminescent Extinguisher Label:  
250mm x 200mm. Cost: £5.24

## ? How can we help you to get the most out of your CPM-200?

- We offer on-site training and support
- Support and advice by phone, fax & email
- Updates, technical data, instructional videos, new clipart and the latest drivers, can all be downloaded from our website

## £ How much does it cost?

The complete CPM-200 system, including dedicated Microsoft certified software, USB cable, weeding tool and squeegee is only:

# £3,300.00 (ex VAT)

## ☰ Why choose a CPM-200?

- ✓ Wide format print & cut facility
- ✓ Multi-colour 300dpi printing
- ✓ Cut labels to any shape
- ✓ Print barcodes & variable data
- ✓ Microsoft Certified software
- ✓ Extensive consumables range
